General Information

Caddo Lake National Wildlife Refuge plays an important role in our National Wildlife Refuge System. On October 19, 2000, the Director of the U.S. Fish and Wildlife Service (Service) approved the establishment of the Refuge on portions of the approximately 8,500-acre Longhorn Army Ammunition Plant in Harrison County, Texas. The refuge was established for the purpose of migratory bird and other fish and wildlife management, conservation, and protection. The bottomland hardwood forest ecosystem provides essential habitat for a diversity of migratory birds and resident wildlife species in Texas. The Service administers the refuge system and is responsible for conserving, protecting, and enhancing the nation's fish and wildlife populations and their habitats for the continuing benefit of people.

Motorized Vehicles

Only legally licensed vehicles are allowed on the refuge and are restricted to roads that are open to travel. Off-highway vehicles (ATV's, ATC's and UTV's) are prohibited on the refuge.

Boats

Boats used for any recreational activity; i.e., hunting and wildlife viewing, must be removed from the refuge daily. Boats must comply with all state regulations.

Roads

Roads may be closed at any time due to adverse weather conditions or management needs. Vehicles must remain on open roads as delineated on the refuge map. Vehicles may be parked alongside open roads in a manner that will not interfere with the normal flow of traffic. Vehicles are not required to park at designated parking areas but are recommended to do so.

Bicycles

Must remain on improved roads at all times.

Accessibility

Persons with disabilities are encouraged to participate in refuge hunts and other activities. Contact the Refuge Manager for guidelines to obtain special use access.

Animals/Pets

All pets and service animals are required to wear a collar displaying the owner's name, address, and telephone number and remain on a leash.

Horses are permitted only on the Wildlife Observation Trail. Riding off roads into fields, woods, or on foot trails is prohibited unless specifically authorized by the Refuge Manager.

Closed Areas

Designated areas will be closed to certain types of hunting (see map for specific locations and closures). Other areas may be closed for special management or safety reasons. Roads and lands closed to public access are designated by signs.

Camping and Fires

Camping and fires are strictly prohibited on the refuge.

Refuge/Cultural Resources

All government property including natural, historic, and archaeological features are protected by federal law. Searching for or removal of objects of antiquity or other value is strictly prohibited.

Tree Stands and Game Cameras

We allow the use of only portable blinds and tree stands on the refuge. You must remove blinds, tree stands, and all other personal equipment from the refuge at the end of each day's hunt. The use of nails, wires, screws, or bolts to attach a tree stand to a tree, or hunting from a tree into which a metal object has been driven to support a hunter is prohibited. Each stand or camera must be clearly identified with the owner's name, address and telephone number.
